Impact Report

DATA AS OF DECEMBER 31ST, 2018

TO DATE, 43,913 CHILDREN REACHED BY THE WORK OF LOVE146.
OUR VISION:
THE END CHILD OF TRAFFICKING AND EXPLOITATION. Nothing less

LOVE146
PROGRAMMATIC GOALS

1
Decrease children’s risk for exploitation through prevention and community education.

2
Protect children through the provision of intervention and support to survivors.

3
Engage in strategic partnership activities to support the vision of Love146 as well as serve as influencers in the anti-trafficking field at-large.

40,627
children reached by our Prevention & Community Education

3,286
children reached by our Survivor Care

12,680
professionals, caregivers, and community members reached

DONOR SPOTLIGHT: “I DONATED AS I WAS A VICTIM OF SEXUAL ASSAULT…”

“I donated as I was a victim of sexual assault and incest and I don’t want anyone else to have to go through what I have. I want others to be empowered to speak up and to be healed of the trauma this crime against innocent people causes. I want children to no longer to feel guilt and shame of this atrocity, and to know they did the best that they could with the tools that they have. I want there to be a transformation in those that have been impacted by these heinous crimes that they can grow physically and emotionally stronger.”

PROFESSIONALS & COMMUNITY MEMBERS REACHED
A SNAPSHOT OF OUR
COALITIONS, COMMITTEES & PROGRAMMATIC COLLABORATORS

Ending child trafficking and exploitation cannot be done by one group. We are effective because we specialize and partner with others. These are just a few of the many organizations, agencies, coalitions & committees Love146 is collaborating with.
12,680

ADULTS REACHED BY LOVE146’S TRAINING & COMMUNITY EDUCATION GLOBALLY  All time cumulative

Some of our training and community education recipients this year so far included...

- THE DALLAS CRIMES AGAINST CHILDREN CONFERENCE
  Dallas, TX

- CHILDREN & FAMILY SERVICES ANTI-TRAFFICKING SUMMIT
  Syracuse, NY

- NATIONAL MINISTRIES OF GENDER & EDUCATION
  Monrovia, Liberia

- RAPE CRISIS CENTER OF MILFORD
  Milford, CT

- PUBLIC POLICY EXCHANGE: PUTTING VICTIMS FIRST
  London, UK

- SALVATION ARMY
  Philippines

- WORLD HOPE INTERNATIONAL
  Philippines

- THE CHILDREN’S CENTER OF HAMDEN
  Hamden, CT

- HOUSTON INDEPENDENT SCHOOL DISTRICT
  Houston, TX

Love146’s trainings focus on skill building, where our community education is about providing knowledge and awareness.

“BEFORE THIS TRAINING, IT UPSET ME IF A CLIENT WAS UNRESPONSIVE…”

“I have a clearer understanding of the child’s responses, especially if the child is non-responsive. Before it upset me if I had not established enough rapport with the client who has been still unresponsive in spite of the several sessions or meetings; but now I’ve learned that it is also a form of the child’s communication with me. I’d also like to let the child interpret or relate with the things around them, not just through structured therapy or using tools, so that it will also be easier for the child to respond to therapy.”

“LOVE146 MADE A DIFFERENCE IN MY FOSTER DAUGHTER'S LIFE”

“I’m a foster parent, and I got to know Love146 and what you do first hand through one of my foster children. I have been with this foster daughter for over 2 years, and Love146 has worked with her on and off during that time. Love146 has made a difference in my girl’s life. Additionally, the organization I work with has monthly trainings for us. A few months ago a marvellous rep from Love146 came to speak. I resolved then to add you to my Christmas list! I wanted to thank Love146, so I made a donation.”

**OUR APPROACH TO SURVIVOR CARE...**

- Provides a space of safety.
- Believes freedom from trafficking and exploitation isn’t an event, but a journey.
- Journeys with survivors over the long haul, and our commitment goes beyond childhood.
- Prioritizes healthy integration into community.
- Offers holistic care, addressing the biological, psychological, social, financial, and spiritual impacts of victimization.
- Collaborates with existing local resources, sharing information and partnering to ensure wraparound care.
- Strives to see survivors become self-sufficient, flourishing adults, free from revictimization or dependency.

---

**WE DON’T TAKE A “ONE-SIZE-FITS-ALL” APPROACH TO ANY CHILD.**

We listen to their needs and desires. We shape programs to consider diverse vulnerabilities and cultural backgrounds. While many factors are different for each location, look to the right to see the things that are similar in all our global Survivor Care work.

- Other/Unknown: 0.2%
US SURVIVOR CARE GROWTH
Cumulative youth reached by year

VULNERABILITIES: WHAT SURVIVORS IN THE US HAVE ALSO EXPERIENCED
Based on data from our US Survivor Care clients

- 87% were involved with child welfare, prior to their exploitation
- 70% were sexually abused, apart from their exploitation
- 65% live with mental illness
- 48% experience suicidal ideation
- 39% have had a family member using substances
- 32% were physically abused
- 29% have lived with domestic violence
- 18% have an incarcerated family member
140 youth have received Long-Term Services

SUCCESS INDICATORS FOR LONG-TERM SERVICES
Data cumulative since beginning of program

- 59% of youth successfully transitioned to sustained care
- 48% were regularly attending school upon intake, and
- 83% were attending school, graduated, or working at time of transition
- 82% made significant progress towards their individual care plan goals
- 76% can list at least 3 people in their life they can turn to for support.

OUR US SURVIVOR CARE LONG-TERM SERVICES...
meet youth where they are, and journey alongside them ensuring holistic care. We don’t close a case and are there as long as the survivor needs us. Services are grounded in individual care plans, developed with youth in conjunction with their caregivers and providers. Love146 works with youth and their support networks and meets with youth on a weekly basis to help them achieve their care plan goals.
LOVE146 SURVIVOR CARE in the US

400 youth have received a Rapid Response meeting

494 Rapid Response backpacks have been distributed to youth confirmed or at risk of trafficking, and to other youth-serving orgs

SUCCESS INDICATORS FOR RAPID RESPONSE
Data cumulative since beginning of program

87% of youth reported intent to change behavior

95% of youth reported learning something new

WHAT IS A RAPID RESPONSE MEETING?
In US Survivor Care, our Rapid Response meetings are designed for youth who are at very high-risk or suspected of being trafficked. A Rapid Response meeting takes place in a one-on-one setting, providing youth with critical information and safety planning related to child sex trafficking, internet safety, grooming, and recruitment. Each youth is given a Rapid Response backpack filled with a range of items youth and service providers have identified as being critical for this population. Most youth who receive Rapid Responses are referred for follow-up care, including some who move into Love146’s Long-Term Services for survivors.
PHILIPPINES SURVIVOR CARE

Youth reached cumulatively

- Survivors have been cared for in our Round Home for girls: 79
- Survivors have been cared for in our White Home for boys: 35
- Survivors have been cared for in our Philippines safe homes: 114
- Children in high-risk communities have been supported: 56

Of children currently in our Survivor Care in the Philippines,
42% are known online sexual exploitation (OSEC) cases, with
100% of perpetrators convicted or in ongoing legal battle

FAST COLLABORATION TO PROTECT CHILDREN:

This fall, several children — ages 4 to 12 — came into our care after being exploited online. The whole intervention took only 36 hours — a whirlwind of activity that demonstrated what close, quick collaboration can achieve. European law enforcement found the abuse and set out for the Philippines. We were alerted by a partner NGO that an intervention would take place. Afterwards, we were beside the children while authorities interviewed them and then brought them to our safe homes. Though the online exploitation of children is an international enterprise, protecting children is local, and requires working together quickly.
“THEY ARE ALONE IN A FOREIGN LAND”

“Imagine how scared a young person will be when they come to live with you... They are alone in a foreign land and may have been subjected to exploitation and abuse. It is such a privilege being a Lover146 Carer and doing what we can to support these young people.”

- Africa: 250

*Prevention Programs no longer active

**Conservative estimates based only on facilitators who are reporting data**

40,627 Youth reached with prevention & awareness

20,785 Reached by Love146 directly

19,842 Reached by equipped professionals
**OUR APPROACH TO PREVENTION EDUCATION...**

- moves beyond traditional awareness, facilitating skill building to decrease vulnerability.
- considers all genders as potential victims and perpetrators, and provides activities for co-ed, male, female, and/or LGBTQ groups.
- is research-based and grounded in best practices in the field of prevention education.
- is designed for schools, child welfare and juvenile justice agencies, and other community settings.
- integrates a holistic view by focusing on individual strengths and personal and societal pressures that create or increase vulnerabilities.

**A NOTE OF CONTEXT:** As of 2017, Love146 has done prevention work in Africa & the United States. Our Prevention Education in the US is longer established, having begun in 2010. These points above reflect our values, and accurately reflect our work in the US. Our work in Africa is in its pilot stage and will continue to deepen and grow through the investment of our financial and programmatic partners.
25,457 youth have been reached by Prevention and Community Education in the United States.
IN PREVENTION EDUCATION, WE OFTEN ENCOUNTER YOUTH WHO’VE ALREADY HAD TRAUMATIC EXPERIENCES, but are struggling with confusion about what happened or fear to trust and disclose. One youth participated in a group going through our prevention curriculum, *Not a Number*. Given her past experiences, it was hard for her to engage and she struggled to complete the modules. But she said Love146 stayed on her mind. She thought about how Love146 helps youth. We recently connected with this youth again. And when we did, she was ready. An introduction through Prevention Education gave her the strength she needed to begin to trust. To allow us to support her as she began her journey of healing.

234 agencies have been licensed with *Not a Number* to date.

20 AMERICAN STATES... currently have active facilitators certified to reach children with our prevention curriculum, *Not a Number*. 

agencies have been licensed with *Not a Number* to date.
8,660 youth have been reached with the “My Body is Mine” flipchart in Liberia & Madagascar.

250 facilitators have been certified to reach children with the “My Body is Mine” flipchart in Liberia & Madagascar.

4 key messages are reinforced through the flipchart:
I am valuable and so are you! Safety is my right! My Body Belongs to Me! I can get help!

“I DIDN’T KNOW THE MEANING OF THE WORD ‘RAPE’ UNTIL I WAS 15.”

“The children in Madagascar need to be reached because their parents aren’t talking about sexual abuse, or sexuality, with them. So kids aren’t aware of it. Even me, I was not. I didn’t know the meaning of the word ‘rape’ until I was 15. I was always asking, ‘What does that mean?’ But people avoided the discussion. It wasn’t until I was older when I understood what it was.”

- MAHERY NASOLONIAVO, THE PRIMARY IMPLEMENTER OF OUR PREVENTION EDUCATION FLIPCHART “MY BODY IS MINE” IN MADAGASCAR.
No identifiable children pictured in this piece are known to be exploited, and names of those affected throughout this booklet have been changed for protection and privacy.

Love146 is one of only a few hundred organizations that has met all 20 standards of charity accountability set by the Better Business Bureau.
